

Introduction of Magnetic Equipments

- Magnetic Equipments
- Electro Magnetic Equipments
- Vibrating Equipments
- Magnetic Equipments Manufacturers
- Magnetic Equipments Supplier

Magnetic Equipments

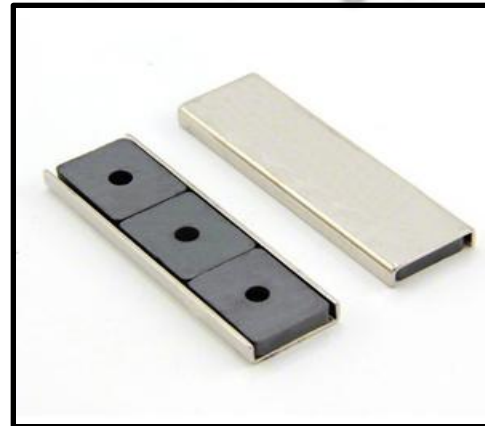

Linux Magnetics - Magnetic Equipments Manufacturers is the India's leading manufacturer and exporter of Magnetic Equipments, Electro Magnetic Equipments, Vibrating Equipments. magnetic equipments used for all process industries like Sugar industry, Pharmaceuticals, Plastics industry, Abrasives & Food process industries, Mineral Beneficiation, Chemical industry, Ceramics industry etc.,

Plate Magnet

Channel Magnet

Magnetic Rods

Magnetic Pulley

Hopper Magnet

Grill Magnet

Electro Magnetic Equipments

Electro magnetic equipments made from high grade material and contains good quality magnets to offer reliable performance. Our offered ranges of electro magnetic equipments are popular in many countries like Bahrain, Saudi Arabia, Sri lanka, Bhutan, Nigeria, Congo and many more countries worldwide. Our electromagnetic equipments are used to prevent possible damage to pipelines and other concern equipments. We offer great range of electromagnetic equipments like electromagnetic vibro feeder, electromagnetic drum separator, electromagnetic lifter and many more instruments.

Electro Magnetic Lifter

It works on electromagnetic principle. It is used to lift so many kinds of things, but commonly it is used to lift and transport ingots and scrap. It is attached to crane or excavator. It contains longer service life and provided with aluminum or copper coil.

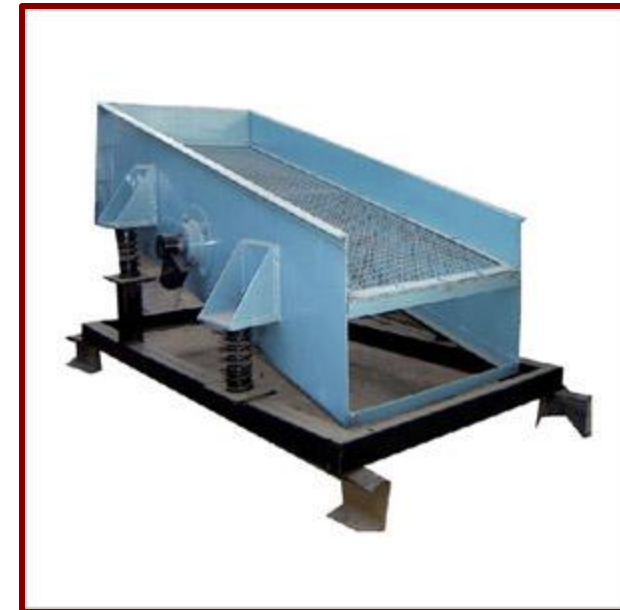

Electromagnetic Vibro Feeder

it is built on strong structure of frame that contains better feeding capacity. This heavy duty structure of electromagnetic vibro feeder helps in operating abrasive materials. It is used to handle bulk material. It is user friendly machine offer noise free operation.

Vibrating Equipments

Vibratory motion is the most effective system for screening. It works on the principle of rotator motion. It is used for the dispersion stirring and stratification of material. Our offered range of vibratory equipments is constructed from high grade material. We offer various kinds of the vibrating equipments with cost-effective price.
